

Book 1: The amazing story of Jason and the flute: A Jason Series

[SOME FACTS] (If you dont want to read this [SOME FACTS], please skip right below and read the [ABOUT THE BOOK] section right below.) A bully exhibits the need or desire to exert or gain control over another, often weaker in nature. Bullies often use physical violence, verbal intimidation or teasing to exert their power over others. There are various types of bullies ranging from hitting, kicking, shoving, to cyber bullying on social networking websites (for older kids) to verbal bullying such as the use of name-calling, insulting, making racist comments, or harsh teasing. There are other types of bullies but these suffice to make the point that bullying is a real problem for our kids or younger brothers or sisters. And most often, its hard to detect if your child is being bullied because they do not communicate well with their parents, they do not tell them, they keep it for themselves and fear for their lives at school. This shouldnt have to hide anything from their parents. In this book, I attempt to touch on some attributes or personalities that your child just like Jason ought to start developing so that they do not fall victims to these bullying events. Although the school teachers can play a big role in fighting back against bullies, theres no better way than an open, honest, genuine and easy communication and conversation with your child and that starts with reading them this book! [ABOUT THIS BOOK] Jason is a 7 year old boy who loves to play the flute; however, hes afraid to tell his friends at school that he loves playing the flute. The other boys would say that he is a sissy for playing the flute. They would tease him, asking him why he didnt play guitar or drums, or some other boy instrument. Jason faces numerous events of bullying at his school but luckily he is able to overcome those adversities and end up exposing to the world who he really is through a concert. This book will educate

your kid who might be going through Jason's path, and help give them courage about expressing who they really are regardless of other people's opinions. It might also guide your kid on who to talk to in case of bullying events at their school; for instance, Jason talked to both his parents and music teacher about his bullies.
