

The Adventures of Chris and Tony

Two boys meet in the 6th grade, one a rich kid and one a poor boy. They strike up an instant friendship. Once the one is cleaned up, people remark how much they look like each other. The rich boy, Chris, lets his new friend Tony win a spelling competition at school, even though Chris had won the previous five years. They would come to discover they shared a past that neither of them knew about. At the end of the story they take an exam to test out of the 7th grade, and discover that together, they can achieve greatness. This story is about how sometimes money doesn't bring happiness, and even when you lose a brother one comes into your life that you never knew existed. It will make boys think about the fact that money means nothing if you don't have a friend. If you read the book, please comment on it. :)
