

Modern Shop Practice: A General Reference Work on Machine Shop Practice and Management, Production Manufacturing, Metallurgy, Welding, Tool Making, ... Pattern Making, Mechanical and Machine D

Excerpt from Modern Shop Practice: A General Reference Work on Machine Shop Practice and Management, Production Manufacturing, Metallurgy, Welding, Tool Making, Tool Design, Die Making and Metal Stamping, Foundry Work, Forging, Pattern Making, Mechanical and Machine Drawing, EtcThe editors have freely consulted the standard technical literature of America and Europe in the preparation of these volumes. They desire to express their indebtedness, particularly, to the following eminent authorities, whose well-known treatises should be in the library of everyone interested in Modern Shop Practice. Grateful acknowledgment is here made also for the invaluable co-operation of the foremost manufacturers and engineering Arms, in making these volumes thoroughly representative of the best and latest practice in machine and pattern shops, foundries, and drafting rooms, and in the construction and operation of machine tools, and other classes of modern machinery; also for the valuable drawings and data, suggestions, criticisms, and other courtesies. About the PublisherForgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
