

Commercial Feeding Stuffs of the United States: Their Chemical and Microscopical Examination (Classic Reprint)

Excerpt from Commercial Feeding Stuffs of the United States: Their Chemical and Microscopical Examination

Sir: I have the honor to submit for your approval a report giving the results obtained in an investigation, of the composition of commercial feeding stuffs sold on the American market, which has been made in the miscellaneous laboratory of this Bureau, according to law. The investigation was undertaken in order that we might efficiently answer the many inquiries received at the Bureau for information regarding this class of goods. As the results are of general interest, I recommend that the report be published as Bulletin 108 of the Bureau of Chemistry.

About the Publisher

Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
