

First Aid and Health Care for Cats

Responsible pet owners never risk the safety of their pets by being unprepared for emergencies. First Aid and Health Care for Cats offers an easy-to-follow guide to coping with and preparing for most common causes of alarm. Part I covers all aspects of general health care enabling you to ensure that your cat is well-fed and comfortable, and is in tip-top condition to deal with the rigours of life in modern human society. By following the guidelines you can help your cat lead a happy life and minimise unnecessary vets bills. Part II covers essential first-aid techniques, to enable your cat to survive in the event of an accident. The problems associated with the most frequent accidents and emergencies (such as choking, drowning, road accidents, seizures and burns) are dealt with, and the techniques for dealing with them. Part III deals with health care when your cat is sick or recovering from an emergency. This book provides the essential supplement to the care that your vet can offer. Clear diagrams, a quick reference section, and suggestions for further reading make First Aid and Health Care for Cats an invaluable manual for all cat owners.
