

## Digging for Bones: South Dakota, Field Journal #1, Tyrannosaurus rex

Digging for Bones is the collection of field journals written by David, a boy who travels the world with his family while his parents conduct digs for fossils of dinosaurs and other ancient creatures. But David has bigger things on his mind. He needs to earn money for a bike, how to avoid bullies, how to not to get tangled up in his brothers bad ideas, and how to train a dinosaur. Most of all, David wants to know how to escape a T. rex. A series for ages 7-12.
