

Mining Ideas and Coal: Journey with Singareni

Coal is nature's gift to mankind. Be it for cooking food in a poor person's house or for lighting millions of homes across many countries in the world, it is occupying a position of pre-eminence. This book is about dreams coming true, about taking initiatives, about hard earned success in implementing state-of-the-art technologies, about human approach and passion for work. It's about transparency, dedication to duty and overall living up to the tenets of trusteeship as espoused by the great father of Indian nation, Mahatma Gandhi.
