

## The Song of I Am: The Divine Song

The Song of I Am is a book written by divine enlightenment and reveals the I Am, the supreme personality of God that we all carry within us. Every human being carries a divine particle that needs to be discovered, recognise and realised in order to entwine and harmonise with the core of perfection. The many religions and doctrines of the world teach us that there is a God, and many ancient sources of wisdom reveal the spirit of the creator of life. In The Song of I Am the internal master speaks directly to us, as we go on a journey of ascension with him to reach the realms of the higher heavens. The book contains seven songs and is written in verses. The first song, The Song of Songs was written in 1976 in Ecuador and was written in its entirety in one week of continuous illumination and the author tells us of the presence of a radiant violet-blue flame during the writing. The subsequent songs were written in England and Costa Rica, Central America between the years of 2002 and 2005. There are powerful teachings, ancient wisdom and exalted emotions hidden in its verses, waiting to be discovered by the reader. The I Am is an eternal oration, a pledge of supreme reverence that delivers and bestows wisdom and love directly to the consciousness as we open ourselves to the message. The Song of I Am is the first of a large compilation of fire letters and illuminated writings that represent a legacy given to humanity by Yoshue Del Prana.
