This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1846 Excerpt: ...for the loss of the ship, and honourably acquitted. H. M. sloop the Barbadoes and Victor, and H. M. S. the Scarborough, were in the hurricane. The two former, it is apprehended, are foundered; but the latter, I am in hopes, is safe. She was under orders to proceed to the Spanish Main; and as the hurricane ran in veins, she may have escaped, as well as the Pallas, Diamond, Pelican, and Lowestoffe, who were also at sea at the time, and are all arrived safe, without any damage whatever. The Pomona arrived on the 24th, with the bowsprit and foremast sprung, and mizen-mast gone; and on the 26th Rear Admiral Rowley arrived in the Grafton, with the following ships, from convoying the trade part of the way to Europe, viz., the Hector, Bristol, Trident, and Ruby, all of them disabled, and mostly dismasted. The Ulysses arrived the same day, without main and mizen-mast, having thrown all her upper-deck guns overboard. Captain Stewart has informed me that he is going to England with the Berwick, dismasted; and I hope the Thunderer and Stirling Castle are also on their passage home, for I have not as yet received any intelligence of these ships. Their Lordships will see, by the enclosed defects of the ships, what a miserable state several of them are in; and what a number of masts, yards, and stores, are wanting to refit them. I have directed the naval storekeeper to send an abstract of the defects, &c, and remainder of stores in our magazine, to the Commissioners of the Navy, and I have written to them on that head. Surveys are taking on the hulls of the ships that were in the hurricanes of the 5th and 17th ultimo. It is at present apprehended that the Hector cannot be put into a condition here CHAP.
