

Managing the Land (Our World) (Our World: Our Future)

The relationship between human actions and the environment is explored in this compelling series. Readers will understand the importance of keeping our planet healthy. Each book features a simple activity and offers ideas on how students can make a difference in caring for our world. Land provides food, fuel, shelter, and almost everything else that we need to live. What can we do today to make sure the land can support people, plants, and animals in the future?
