

Pillow Talk: Essential Conversations for a Lasting Relationship

Pillow Talk reveals the daily struggles that young, single professionals face on a daily basis in the dating scene. Jason Alexander Ottley mixes candor and humor with straight-talk and honesty, as he reaches the very core of those that have been hurt and unable to locate the ability within themselves to heal. Pillow Talk will take you on a journey of renaissance and self-discovery, while exposing the answers to the most difficult questions regarding sex and relationships. Ottley reveals some of the realities from his own life and relationships to help you discover the purpose of your relationships, while exposing the negativity of those who intend to simply pass through your life and leave you feeling empty. He encourages you to address the real issues within yourself with strength, and forgive yourself with the mercy that you so richly deserve.
