

# The Spiritual Gardeners Handbook: A Guide To Cultivating The Garden Of Your Heart

This book is going to teach you one very important concept that will change your life: What you cultivate in your heart can determine not only the physical rewards you experience while here on earth, but it will also allow you to reap emotional and spiritual rewards which can give you a heaven on earth. This life is of our making. We have created it. It has been grown from the seeds that we have sown or allowed to grow in our garden. We do have a choice. We can make a difference. We can change this life permanently for the better. When we allow weeds of negativity to take root in our hearts, the good things in our lives diminish. And likewise, when we plant seeds of joy and prosperity in our heart, these things begin to manifest themselves in our real lives as well. Wouldnt it be wonderful if, by cultivating this garden in our heart, we could create that kind of profound spiritual experience felt by those who came in contact with Jesus, or Buddha, or Mohammad or Lao Tzu? And we can! When we plant a garden, we are creating a sacred place in the earth. And so, when we cultivate the garden within our heart, we are creating a place for God to always occupy in our heart. Cultivating a Spiritual Garden in your heart literally takes you to the roots of human happiness and fulfillment.
