

Benjamin Franklinshtein Lives!

Victor Godwins orderly life is upended when he discovers that Benjamin Franklin never actually died-he was put into suspended animation and hidden away for more than 200 years in Victors basement! After an accident reawakens Ben, Victor must not only help him adjust to the modern world but also help him overcome a slight flaw: when Ben runs low on energy, he turns into a rampaging monster desperately hungry for electricity! All this while trying to take first place in the school science fair. With one of historys preeminent scientists helping out, what could go wrong?
