Merit Leonardo is a delightful childrens book appropriate for both girls and boys and toddlers alike, and is about a spider and his friends who love to lift weights. As wonderful as growing up is, Leonardo soon discovers the growing side of spiders when a fun time at the gym, turns into his first molting. This is a wonderful book for children and a book with a very special meaning for both parents and children as even spiders go through growing pains and the love of their parents and friends is the love that shelters them from the pain. Welcome Welcome, please take a look inside. Leonardo the Spider Molts is for all ages, even the old and a delightful story about a young family and the love of his parents and family. Leonardo is also written to give children a little education on spiders. Please take a look inside, find a comfy spot for you and your child, or just you, and enjoy reading Leonardo the Spider Molts.
