

Nanotechnology 2014: Graphene, CNTs, Particles, Films & Composites Technical Proceedings of the 2014 NSTI Nanotechnology Conference and Expo (Volume 1)

NSTI's nanotechnology conferences have built a tradition of being the most prestigious forum in the world for leading nano scientists, and Nanotech 2014 is no exception. Top nano scientists offer an up-to-date global perspective on the latest developments in nanotechnology. More than mere proceedings, these volumes cut across every scientific and engineering discipline to provide the most complete record of current accomplishments in Nanotech.
