

Find the Hidden Animals Volume 3 (Camouflaged Animals)

Have fun finding camouflaged birds, fish, insects, amphibians, mammals, and reptiles with your 2-12 year old. The hidden animals are circled and identified on the page following the initial presentation of the photo. Various methods of camouflage are defined and readers are asked to identify the camouflage method the animals display in the photo. Add this book to your child's collection of science books! Enjoy photos taken by skilled photographers who hunt for animals hiding all around the world. Feel good that some of the money from the sale of this book will be donated to support Wikipedia, the non-profit, online Free Encyclopedia. I hope to persuade KDP to allow all the proceeds from my books for children that employ Wikimedia photos to go directly to the non-profit, online Free Encyclopedia. You could help by requesting this enhancement to KDP self publishing platform.
