

## Big Book of Adventure Mazes (Dover Childrens Activity Books)

Welcome to a hidden world of high adventure, where daring and skill are handsomely rewarded. There are fabulous treasures to be found, but only for those with courage enough to enter the Mystic Caverns, deep within the magic realm of the imagination. Maze master Dave Phillips will take you there on a winding journey through 32 mazes filled with myth, mystery, and marvels. There are four levels of increasing difficulty for you to explore and solve. The first level is filled with traps of fire, snakes, giant spiders, rats, and deadly spikes. The second level is filled with secret passages, which you can enter so that you may emerge in another section of the maze. The third level has you choose one of the three weapons to use against ghosts, skeletons, and warriors. In the fourth level you must collect arrows to protect yourself from wolves and giant scorpions. In addition, each maze has its own unique dangers and rewards. You must follow the rules set forth at the beginning of each level, as well as the instructions for each maze. If you fall into a mortal peril and cannot find your way, there are solutions to the mazes beginning on page 39. Now, with pencil in hand, go forth to victory, wealth, and glory.
