Storm Data and Unusual Weather
Phenomena with Late Reports and
Corrections: January 1988, Volume 30,
Number 1

U.S. Department of Commerce: National
Oceanic & Atmospheric Administration
(NOAA)

The National Oceanic & Atmospheric Administration (NOAA) is a department of the United States that focuses on our atmosphere and our oceans. The NOAA produces reports each month on damaging weather across the nation. Each report contains information on destruction to property, deaths, injuries and the paths these particular storms take. The Outstanding storms of the month section of each report shows the most compromising weather with images, drawings and even narratives. This is one of those reports.
