

First Words

What would you do if you found out your dog could talk? That's one of the problems Sam Bates suddenly finds he has to solve. Sam, and his brother, Archie, have a wonderfully calm and untroubled life. Nine-year old Sam is quiet and thoughtful; some people (his parents and teachers) would say he is too quiet and too thoughtful and that he even lacks confidence. Sam wouldn't agree, because he knows that deep down inside he is just like his younger brother. Archie is always getting himself (and Sam) into trouble with his loud, funny and hectic games. He doesn't stop to think, as his parents and teachers would say, and rushes in, causing more problems than he can solve. Everything starts to change when Sam has to take care of his aunt's dog. At first he hates everything about Goldie, especially the way it looks and its silly name. Then, one evening he discovers the dog has an amazing talent: it can talk... and that's when his problems really begin. Now, Sam has a secret to keep. His loyalties suddenly change and the friendship he has with his brother changes too. Sam spends more and more time with the dog, and less and less with his brother and his school friends. Sam and Archie argue more than they have ever done in the past, and Sam tries everything possible to make sure he can spend more time with Goldie. When the school holidays arrive Sam realises he can secretly talk to Goldie whenever he wants... at least that's his idea. Then, his family step in with lots of great holiday plans and Sam finds that making time to be with Goldie is far more difficult than he first thought. Then, to add to Sam's unhappiness Goldie disappears and the real adventure begins. Now Sam realises just how much he needs his brother and his school friends once more. First Words is a unique children's story that deals with friendship, loyalty, secrets and self-confidence. The tale has a mellow,

charming quality that makes it feel a little like a children's adventure from the past; however, the setting and characters are firmly in the present. The story crackles with snappy dialogue and intriguing events. First Voice is an entertaining and engaging mix of the ordinary meeting the extraordinary. A Dick King Smith meets Philip Ridley story, as one reviewer at Transworld Books described it. The author, John Duffy was a primary school teacher for over 15 years, and the story has been carefully crafted to appeal to 6-10 year olds.
