

Anonymity Jones

Get out, or get even? Once, in a street not very far from yours, there lived a girl called Anonymity Jones. Anonymity's life is falling apart. Her father has left to have a mid-life crisis, her mother's new boyfriend is a definite worry, her Europe-bound sister has changed her name (just to make a point) and all her girl friends are now girlfriends, with boyfriends. And then there's the art teacher. Anonymity is losing control, and it's decision time. Does she hang on, get out, or get even?
