The 8-Session Protocol allows clinicians and facilitators to follow a manualized format to assist individuals in examining: ~What areas of freedom exist within current life circumstances to activate and discover meaning in life? ~How can meaning be uncovered with an ongoing discovery throughout life? ~How can inner resources and strengths be used toward meaning and purpose in life, and in overcoming adversity? ~What goals and possibilities were once mentioned, never completed, and could be reactivated? ~What new possibilities can be discovered and become meaningful? ~What meaningful tasks can be accomplished as part of a personal Legacy Project of ones human existence? Viktor Frankls Logotherapy & Existential Analysis (LTEA) philosophy and therapeutic framework encourages individuals to: ~Recognize strengths and weaknesses, and utilize both for personal and relational

growth. ~Develop a greater personal understanding of the experiences within the human condition. ~Uncover and discover inner strengths and resources to live passionate, fulfilling and meaningful lives. ~Live authentically, heal from traumatic experiences, and have personal and relational transformation. This process facilitates accessing and discovering Meaning, and fulfilling ones existential Responsibility to life through: Self-Awareness, Self-Reflection, Self-Discovery, Self-Connection, Self-Acceptance, & Self-Transcendence.
